BILLING INFORMATION FOR YOUR PROCEDURE

You may receive up to five separate bills for your upcoming procedure.

- Physician Services (Dr. Richard Gaeke 513-422-0024)
- Facility Charge (GI Endoscopy Center 513-422-5990)
- Anesthesia Services (Allied Anesthesia 513-217-2094)
- Laboratory Testing (Atrium Medical Center 866-674-4737)
- Pathology Services (P4 Diagnostics 877-744-7781)

A representative from the GI Endoscopy Center may call to advise you of the approximate portion of the **facility bill** for which you will be responsible. You may be asked to bring prepayment for the facility bill. The physician bill, anesthesia bill, laboratory bill and pathology bill will be mailed to you after your insurance processes the claims.

The rules regarding preventive services vary by insurance company. Generally, your age, personal and family history and current symptoms are factors in this determination. Prior to receiving your colonoscopy, please check your insurance company guidelines and notify the physician office if you think your procedure fits within your insurance company guidelines for preventive services. Please note that we are only able to code your procedure as preventive if your medical record supports that finding.

Our office is happy to answer questions regarding your bill. However, if you feel the insurance company did not pay charges correctly, those calls should be directed to your insurance company.
