

COLONOSCOPY PREP

with

PLENVU

DAY BEFORE PROCEDURE:

Around 6:00pm, empty the contents of DOSE 1 pouch into the container. Add water to the top line and mix until dissolved. This may take several minutes. Drink the entire contents over the next 30 minutes. Then drink at least 16oz. of clear liquid of your choice.

Around 9:00pm, repeat with the contents of DOSE 2 (pouch A and pouch B). Drink the entire contents over the next 30 minutes. Then drink at least 16oz. of clear liquid of your choice.

DAY OF THE PROCEDURE:

Stay on clear liquids.

Nothing by mouth for 4 hours before procedure.
